View Payment Details

Menu styled as a flyout side-menu.

- Button is tapped to activate the menu.
- The button is also tapped to close the menu or swipe menu to left to close it.

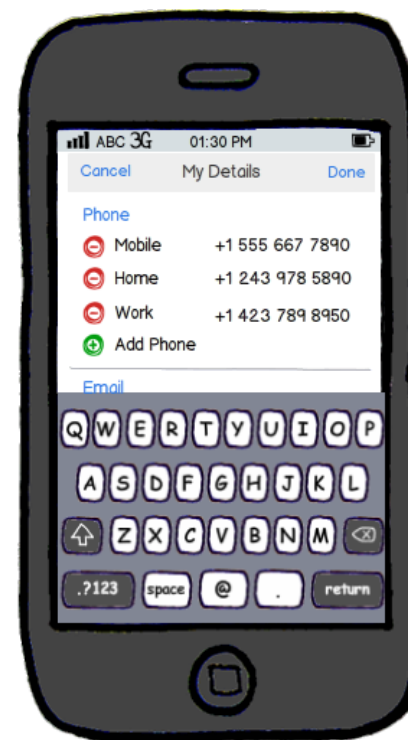

My Details

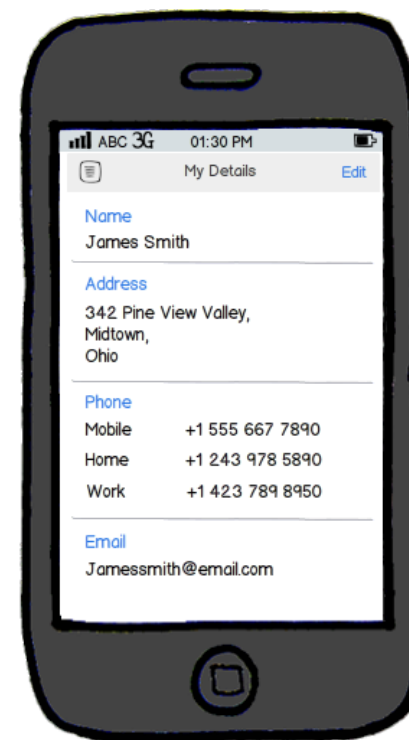

Edit My Details

- **Note:** The wireframe is following iOS standards too closely, we will need to look into the best way to make the edit functionality work across mobile platforms. The styling will be addressed in the hi-fis.

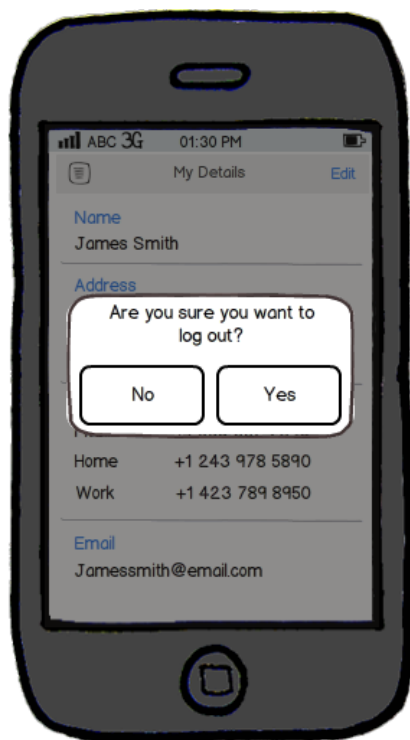

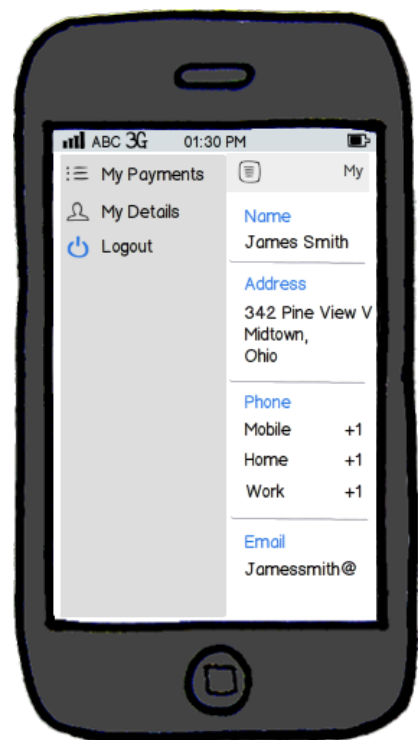

Edit My Details

- A work phone number is added.

My Details

- The work phone number is added to the details.

Log out

- Side menu slides back and modal appears.
- If user clicks no then they are brought to the page they were previously on.
